Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

In 1965, Colin Chapman persuaded Ford to underwrite development of a V8 for the new 3000cc Grand Prix formula. Built by Cosworth, the new DFV engine won Lotus four World Championship Grands Prix in 1967. A year later, and now available to other constructors, the engine began its domination of Grand Prix racing.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

A comprehensive, radical look at the history and development of the Type 57 Grand Prix Bugattis. New material challenges traditional beliefs about these historic cars, and rejects some long-standing conventions. Myths are explored and truths are revealed in a book celebrating all aspects of these remarkable cars and their creators.
