CPR & ECC Guidelines | American Heart Association CPR...

In 2010, the American Heart Association's (AHA) Guidelines for CPR rearranged the order of CPR steps. Today, instead of A-B-C, which stood for airway and breathing first, followed by chest compressions, the AHA teaches rescuers to practice C-A-B: chest compressions first, then airway and breathing.

~~Why Did CPR Change from A-B-C to C-A-B?~~

Today the American Heart Association (AHA) and European Resuscitation Council (ERC) released their 2010 Guidelines for resuscitation. These guidelines are updated once every five years, and reflect the latest scientific research on CPR and ECC (Emergency Cardiac Care). As the Guidelines may impact how an Automated External Defibrillator (AED) guides a responder, Cardiac Science is committed to providing you with the latest information regarding any potential changes.
