Publisher’s Note: Products purchased from Third Party sellers are not guaranteed by the publisher for quality, authenticity, or access to any online entitlements included with the product. This book presents engineers with solutions to the problems found in control applications in the commercial HVAC buildings industry. Using their experience to take readers beyond textbook principles, the authors offer suggestions for troubleshooting not found in any other book. Divided into two sections, HVAC Controls and Systems covers all aspects of commercial controls, including pneumatic, electric, and electronic controls. The first section discusses the hardware of the controls industry: thermostats and humidistats, dampers and damper motors, automatic valves, transmitters, auxiliary devices, construction systems and devices, and electronic products. The second section covers applications of the hardware for air handling unit systems, terminal systems and units, primary systems, heat pump cycles, distribution systems, supervisory systems, maintenance and operations, and total facility approach.

A clear-eyed look at how AI can complement (rather than eliminate) human jobs, with real-world examples from companies that range from Netflix to Walmart. Descriptions of AI’s possible effects on businesses and their employees cycle between utopian hype and alarmist doomsaying. This book from MIT Sloan Management Review avoids both these extremes, providing instead a clear-eyed look at how AI can complement (rather than eliminate) human jobs, with real-world examples from companies that range from Netflix to Walmart. The contributors show that organizations can create business value with AI by cooperating with it rather than relinquishing control to it. The smartest companies know that they don’t need AI that mimics humans because they already have access to resources with human capability—actual humans. The book acknowledges the prominent role of such leading technology companies as Facebook, Apple, Amazon, Netflix, and Google in applying AI to their businesses, but it goes beyond the FAANG cohort to look at AI applications in many nonotechnology companies, including DHL and Fidelity. The chapters address such topics as retraining workers (who may be more ready for change than their companies are); the importance of motivated and knowledgeable leaders; the danger that AI will entrench less-than-ideal legacy processes; ways that AI could promote gender equality and diversity; AI and the global loneliness epidemic; and the benefits of robot–human collaboration. Contributors Cynthia M. Beath, Megan Beck, Joe Biron, Erik Brynjolfsson, Jacques Bughin, Runman Chowdhury, Paul R. Daugherty, Thomas H. Davenport, Chris DeBrusk, Berkeley J. Dietvorst, Janet Fouty, James R. Freeland, R. Edward Freeman, Julian Friedland, Lynda Granton, Francis Hintermann, Vivek Katyal, David Kiron, Frieda Klotz, Jonathan Lang, Barry Libert, Paul Michelman, Daniel Rock, Sam Ransbotham, Jeanne W. Ross, Eva Sage-Gavin, Chad Syverson, Monideepa Tarafdar, Gregory Unruh, Madhu Vazirani, H. James Wilson

Corporate social responsibility has gained substantial traction in recent decades but many still struggle with conveying the importance of integrating ethics and environmental and social values within the demands of a business world understandably concerned with making profit. First published in 2009 as ‘Do the Right Thing’, The Practical Guide to Corporate Social Responsibility guides you through the basics, teaching how to recognise CSR benefits and put principles into practice in a business-focussed way. This new edition helps readers get to grips with improving their organisation’s environmental management, sustainability, health and safety and trading ethics with straightforward guidance and tips. A new ‘Do The Right Thing’ Model assists organisations with identifying risks and frames corporate social responsibility in a business context accessible to all. Features include: An updated Do the Right Thing Model aligned to the new ISO high level structure for management system standards 20 global case studies to demonstrate how the model can impact performance A corporate social responsibility policy template for your organisation’s use Helpful ‘Test your thinking’ exercises to check your understanding and stretch your working knowledge 100 practical actions for you to start implementing today This is an essential introduction to the complex areas of corporate social responsibility that affect health and safety practitioners, environmental managers, human resources personnel and those working with quality and business assurance. It will also be critical reading for those looking to understand how CSR fits into the new high level structure of ISO 9001, ISO 14001 and ISO 45001.

Although fiction writers must concern themselves with “big picture” issues such as plot, theme, and character development, much of the day-to-day work of writing involves finding answers to seemingly minor questions: How should I describe the exterior of a house? How can I construct the voice of a historical narrator with authenticity? How should I depict a physically atypical character? Few books on the market address the problems and opportunities present in these and other questions, yet they are the ones that most writers grapple with on a daily basis. Danger on the Page: A Fiction Writer’s Guide to Sex, Violence, Dead Narrators, and Other Challenges identifies and explores some of the more common and intractable challenges of fiction writing, with chapters grouped into the general subject areas such as scenes, characters, points of view, and settings. Shawver delves into the pitfalls and opportunities of writing about sex, violence, sports, and love; he examines writing from the perspective of a different race, gender, or species; he interrogates conventional beliefs about the use of brand names, the description of architecture, and the portrayal of nature. Throughout, he gives dozens of examples from both literary and commercial fiction so readers can borrow (or reject) other writers’ techniques and explore the myriad challenges of fiction writing on their own. A lively and witty approach to a diverse range of specific writing issues, Shawver’s book will appeal especially to intermediate-level writers seeking to bring their craft to the next level.

A loud, wild, cuddly and in-your-face party girl with sky-high hair and a spray tan, the pint-size Snooki has emerged as the breakout star of the wildly successful Jersey Shore. She’s been parodied on Saturday Night Live, appeared on almost every major talk show (including Leno and Conan), was featured in the New York Times, and has more than 300,000 followers on Twitter. Snooki also has attracted a slew of celebrity fans, like Leo DiCaprio, Sean “Diddy” Combs, Ashton Kutcher, Demi Moore, Zach Braff and Tinsley Mortimer. This attractively designed full colour book will feature tons of photos, tips, and fascinating details from American’s favourite guidette and will be a must have for fans of Snooki and Jersey Shore. \* Snooki Style: The post never dies; Waving, streaking and banging’ it - my other sick hairstyles; Why orange you tan; The guidette wardrobe - what to rock. \* Guidos, Gorillas & Juiceheads: What I look for in a gorilla; Different types of gorillas; How to break up with a guido so he isn’t a stage-5 cling; Warning signs that the guy is a creeper; 5 sure signs a guy isn’t a guido. \* How To Be a Guidette: The Guidette Pose; 12 things a guidette would never do; The Snicionary, or a Guidette’s favourite words.

She’s on the sheriff’s most wanted list. Waking up with a naked woman holding a knife at his throat is just about the last thing Sheriff Travis Flynn expected. And the brother she’s looking for? A murderer. And dead. Probably. But the real shock comes when she insists she’s not a Lycan. LeAnn Wilcox isn’t looking for love...especially not from some wolf in sheriff’s clothing. She operates on the other side of the law. Once she finds her brother-alive-she’ll get out of the pack’s territory and go back to her regular, normal, non-furry life of changing jobs and her name whenever her past closes in. The cool, logical Sheriff has finally met his match, but LeAnn’s life is at stake if she won’t claim her place in the pack, especially once his control over the pack is challenged and her brother’s fate is questioned.

Aligning theory with practice, chapter-by-chapter activities and discussion questions examine the critical role of a strong learning community in implementing effective school reform, with a focus on Blanksteins six guiding principles:Common mission, vision, values, and goals Systems for prevention and intervention Collaborative teaming for teaching and learning Data-driven decision making and continuous improvement Active engagement from family and community Building sustainable leadership capacity With the Facilitators Guide to Failure Is NOT an Option™, you can effectively lead others through dialogue, reflection, and application of Blanksteins principles. It is an ideal resource for school principals, district administrators, teacher leaders, and educational policy makers, and perfect for groups of any size-pairs, small workshops, and large seminars.

A comprehensive guide to Michigan’s wild-growing seed plants

This book bridges the gap between ecotoxicology and limnology, offering an ecotoxicological perspective on lake management. The text describes eutrophication of shallow, temperate lakes, and examines the influence of toxic substances on the aquatic ecosystem, and proposes that nutrients like phosphorus are not the only important factor in explaining and managing eutrophication. Draws on a range of studies and experiments, some presented here for the first time.
