For years track days have been popular activities for European motorcyclists. In recent years it has become a very popular activity in the U.S. as well. As traffic laws become increasingly draconian, roads become increasingly congested, and motorcycles become increasingly capable, more people are taking their bikes to race tracks. Currently there are a number of organizations catering to people who attend track days. But many people who want to ride on racetracks don't attend track days because they don't know how to prepare themselves or their motorcycles for the racetrack. This book will provide tell them everything they need to know to hit the racetrack: How to prepare their motorcycles, how to find organizations that sponsor track days, where to attend track days, specific information for the major racetracks in the United States, information on track schools around the country, and much, much more.About the AuthorKent Larson, an accomplished racer and a control rider for NESBA, one of the country's leading track day organizations, contributed the chapter on track days to our high performance riding book Total Control. Larson lives in Woodbury, Minnesota.

"While open spaces in America are rapidly being destroyed as a result of greed, hubris, and neglect, Stephen Trimble's Bargaining for Eden is a powerful call for us to more earnestly consider our solemn obligations as stewards of the Earth. Combining remarkable investigative research with his skills as a poignant essayist, Trimble has favored us with an extraordinary account that inspires as it challenges our values, our commitment to action, and our sense of connection with place, community, and the essence of who we are as inhabitants of this wondrous planet. "—Rocky Anderson, Former Mayor of Salt Lake City " From Hetch Hetchy to Glen Canyon, we mourn the sacred places in the west that have been bargained away for the American dream. Stephen Trimble eloquently shows that these are not just conflicts over land, but choices over which American dream we pursue as a nation. What moves us to act? What do we really value? How shall we live together? In this mature and poignant book, Trimble urges passion and self-awareness and reminds us that no conflict arises totally outside of oneself; all of the things we fear in others may be possible in ourselves. " —Peter Forbes, Director, Center for Whole Communities " With this masterwork, Stephen Trimble has given us the most reasoned and moving account of how and why the West becomes developed and its lands fragmented. Rather than merely pointing the finger at developers or passive staffers in federal agencies, he places the development issue in a larger cultural context, asking us all to be full participants in the choices about how our lands and waters are ultimately managed. As wise as it is heartbreaking, Trimble's story challenges us to sign on to supporting a new ethics of land use in the West that will keep such tragedies from occurring so frequently in the future. " —Gary Nabhan, author of Renewing America's Food Traditions and Cultures of Habitat " With Bargaining for Eden, Stephen Trimble has given us both a piece of dogged investigative journalism and a soul-searching confessional. The shocking, largely unreported story of Earl Holding and the Snowbasin land swap becomes, in Trimble's heartfelt prose, a metaphor for the way land is used and abused in the West. But Stephen doesn't stop with the expos é . He weaves it into a thoughtful and thought-provoking reverie on man's place in an increasingly threatened landscape. We are all part of the problem. And, he writes hopefully, we can, with honest effort, become part of the solution. " —Peter Shelton, author of Climb to Conquer: The Untold Story of WWII's 10th Mountain Division Ski Troops " Make no mistake: Bargaining for Eden is a brave and important book. It's a page-turner of a story about powerful men, unspeakable wealth, and Olympic gold-medal mountains. But it's also a Juggle—in the tradition of Upton Sinclair, a disturbing story of how politics and capitalism worked hand-in-hand against the common good and our commonweal of wildlands. If we are ever to learn how to live on the land and at the same time protect its heart, maybe we can start here, in Trimble's beloved Utah mountains. " —Kathleen Dean Moore, author of The Pine Island Paradox
