Chinese scientists have built what they claim is a revolutionary plane engine for Mach 16 flight. An aircraft powered by the engine could reach anywhere in the world within two hours, they said. The test flight of a prototype in a hypersonic wind tunnel in Beijing suggested unprecedented performance in terms of thrust, fuel efficiency and operational stability.

North Holland has dozens of historic town centres that are worth visiting. The most well-known is obviously the historic centre of Amsterdam, which became a UNESCO World Heritage Site in 2010. Its characteristic architecture and lovely canals (known as grachten) demand some pictures to be taken. But there are a lot more of them in the province — every region of North Holland at least has one ...
