Divorce in the United States is becoming more prevalent than ever. More than 2.3 million Americans divorce each year, and half of all marriages and 60% of all remarriages end in divorce. And the costs of ending a marriage--(both financial and emotional)--(are staggering; the most conservative estimated cost of divorce is \$15,000 and average legal fees range from \$20,000 to \$30,000. And with most lawyers fees reaching \$300 or more an hour, there is a widespread need for accessible, inexpensive, and trustworthy information on all aspects of divorce. "The Complete Guide to Divorce Law provides readers who have no legal background with a detailed explanation of divorce law in each of the 50 states, which will help to minimize these legal fees and some of the emotional trauma that accompanies a divorce. For a fraction of the cost of an hour with their divorce lawyer, legal expert Nikara Choudri provides an easy to understand explanation of legal rules governing alimony, child support, child custody, and visitation. Now everyone going through a divorce will learn the requirements for filing for divorce, how divorce courts divide property, the qualifications for alimony, and how much child support will be required in a specific case. From the basic subjects, like determining the grounds for divorce, to complex topics like pensions, stock options, and professional licenses and degrees, Choudri offers sound, step-by-step advice that will help those contemplating the dissolution of a marriage to negotiate a settlement directly with a spouse as well as helping them to determine whether they can reach an out of-court settlement. With chapters on such topics ranging from transmutation to drafting anout-of-court agreement, this is an invaluable guide that will help everyone make informed rational decisions while coping with the difficult issues that can arise in a heated divorce.

Maria Shriver, Kim Kardashian, Stevie Wonder, Britney Spears . . . Who do they have in common? Top LA divorce lawyer Laura Wasser. If anyone ever had a platform to write a how to divorce book for today's generation, it's Laura Wasser. She has been practicing in her field for nearly twenty years, represented many of the country's top celebrities and has been celebrated for her unique style, her empathy and her expertise. Wasser's personal and professional life have been profiled by publications like the Los Angeles Times, Vogue and Interview. Most important, her approach and advice is different from almost any other and she articulates it in a simple manner. Laura Wasser addresses an entire generation who want--and need--to handle their breakups differently. It's no secret that the divorce rate in America is more than half the marriage rate. Yet the means for dissolving a relationship often seem hopelessly mired in an outdated perception of how it's supposed to be done. Wasser acknowledges that this generation's realities have evolved greatly since the previous generation's in almost every way, and that they want to get divorced cheaply and efficiently and maintain control of the process themselves. The daughter and partner of a prominent Los Angeles Family Law attorney, she has a deep history in the field, and she knows the available roads to uncontested resolution like nobody else. At times psychologist, at times strategist, and distinctly of this generation, Laura and her book will offer readers safer passage through what can be a devastating time, emotionally and financially.

But the topic of divorce is closer to the hard-to-shallow aftertaste of life. Tidbits are short burst of flavor. They are for entertainment. Divorce is not entertainment.
