A classic Schaum's bestseller, thoroughly updated to meet the emphasis in current courses. The ideal grammar review with clear, logical explanations that will build linguistic competency for the hundreds of thousands of college and Senior school students who enroll in Spanish language courses.

This book traces the roots of global financial integration in the first "modern" era of globalisation from 1880 to 1913 and can serve as a valuable tool to current-day policy dilemmas by using historical data to see which policies in the past led to enhanced international financing for development.

Print Student Workbook and Audio Activities.

Essential reading for understanding the international economy—now thoroughly updated Lucid, accessible, and provocative, and now thoroughly updated to cover recent events that have shaken the global economy, *Globalizing Capital* is an indispensable account of the past 150 years of international monetary and financial history—from the classical gold standard to today's post-Bretton Woods "nonsystem." Bringing the story up to the present, this third edition covers the global financial crisis, the Greek bailout, the Euro crisis, the rise of China as a global monetary power, the renewed controversy over the international role of the U.S. dollar, and the currency war. Concise and nontechnical, and with a proven appeal to general readers, students, and specialists alike, *Globalizing Capital* is a must-read for anyone who wants to understand where the international economy has been—and where it may be going.

Inspire Science is designed to help you spark students' interest and empower them to ask more questions, think more critically, and maximize their ability to creatively solve problems.--Publisher's website

Critics warn that corporate leaders have too much influence over American politics. Mark Mizruchi worries they exert too little. American CEOs have abdicated their civic responsibilities in helping the government address national challenges, with grave consequences for society. A sobering assessment of the dissolution of America's business class.

Includes exercises and drills for quick learning
