What is Loss? Loss is failure to keep someone or something. It is having someone, or something leave or taken away. It can be inadvertent or accidental. It is generally unrecoverable, and unanticipated. It creates an unfillable void. It is universal, inevitable, inescapable and part of life. It is personal and should n

Loss, Grief, Transition & Transformation
processing the grief, loss or transition; adjusting to life without their physical prescence; incorporating your loved one into every day life; But what is grief? Grief is the natural reaction to loss. Grief is both a universal and a personal experience. Individual experiences of grief vary and are influenced by the nature of the loss.

Grief, Loss & Transitions
The grieving process. Grieving is a highly individual experience; there's no right or wrong way to grieve. How you grieve depends on many factors, including your personality and coping style, your life experience, your faith, and how significant the loss was to you. Inevitably, the grieving process takes time.
