Provides a single-volume introduction to the important connection of Frankfurt School thought and modernist cultureTyrus Miller's book offers readers a focused introduction to the Frankfurt School's important attempts to relate the social, political, and philosophical conditions of modernity to innovations in twentieth-century art, literature, and culture. The book pursues this interaction of modernity and modernist aesthetics in a two-sided, dialectical approach. Not only, Miller suggests, can the Frankfurt School's penetrating critical analyses of the phenomena of modernity help us develop more nuanced, historically informed and contextually sensitive analyses of modernist culture; but also, modernist culture provides a field of problems, examples, and practices that intimately affected the formation of the Frankfurt School's theoretical ideas. The individual chapters, which include detailed discussions of Walter Benjamin, Theodor Adorno, Herbert Marcuse as well as a survey of later Frankfurt School influenced thinkers, discuss the ideas of a given figure with an emphasis on particular artistic media or contexts: Benjamin with lyric poetry and architecture as urban art forms; Adorno with music; Marcuse with the liberationist art performances and happenings of the 1960s. Key Features:Introduces well-studied major figures such as Benjamin and Adorno in a new light, while connecting their ideas with problems in modernist art and cultureOffers a clear, thorough, and relevant survey of major ideas and figuresProvides a revisionary view of the rigorous connection of Frankfurt School theory and modernist culture

Ten years ago one of America's most important public figures, First Lady Hillary Rodham Clinton, chronicled her quest both deeply personal and, in the truest sense, public to help make our society into the kind of village that enables children to become able, caring resilient adults. IT TAKES A VILLAGE is a textbook for caring, filled with truths that are worth a read, and a reread. In her substantial new introduction, Senator Clinton reflects on how our village has changed over the last decade, from the internet to education, and on how her own understanding of children has deepened as she has watched Chelsea grow up and take on challenges new to her generation, from a first job to living through a terrorist attack. She discusses how the work she is doing in the Senate is helping children and looks at where America has been successful, improvements in the foster care system and support for adoption, and where there is still work to be done, providing pre-school programmes and universal health care to all our children. This new edition elucidates how the choices we make about how we raise our children, and how we support families, will determine how all nations will face the challenges of this century.

Prior to the twentieth century, Arab society in Palestine was predominantly illiterate, with most social and political activities conducted through oral communication. There were no printing presses, no book or periodical production, and no written signs in public places. But a groundswell of change rapidly raised the region's literacy rates, a fascinating transformation explored for the first time in Reading Palestine. Addressing an exciting aspect of Middle Eastern history as well as the power of the printed word itself, Reading Palestine describes how this hurried process intensified the role of literacy in every sphere of community life. Ami Ayalon examines Palestine's development of a modern educational system in conjunction with the emergence of a print industry, libraries and reading clubs, and the impact of print media on urban and rural populations. Drawn from extensive archival sources, official reports, autobiographies, and a rich trove of early Palestinian journalism, Reading Palestine provides crucial insight into the dynamic rise of literacy that revolutionized the way Palestinians navigated turbulent political waters.
