[PDF] information technology and indigenous people eBook

If indigenously founded Internet resources and technologies are any indication of Indigenous peoples' willingness to embrace the technological era, the answer is that many Indigenous communities see telecommunication and computer technologies as a way to improve, rather than hinder, self-sufficiency, preservation of culture, real sovereignty, and general economic conditions. [1] As noted in one 1999 Benton Foundation study, "[a]mong the tools recognized by tribes as essential to their ...
