International Finance, Transactions, Policy, and ...  
Part One deals with the international aspects of banking and securities markets in major financial centers. It covers sweeping reforms in response to the global financial crisis of 2007-2009 and the Eurozone crisis that followed, including new national and international approaches to financial stability oversight, as well as the latest regulatory relief initiatives moderating the effects of post-crisis reforms.

International Finance: Transactions, Policy and ...

International finance is a way to analyze the economic status of the countries you may wish to do business with, judge the foreign markets, compare inflation rates and pay bills in a foreign currency. Without international finance, you would not be able to compare currency exchange to figure out the cost of doing business abroad.
