Renowned authors Dick Robinson, Mike McKenna, and Judy Wedman gear students to success by presenting scrupulously researched material that meets the

NCATE/International Reading Association requirements for accreditation of graduate reading programs. A Letter to Students from the Authors Dear Reader, The authors of this literacy education textbook welcome you to the study of this important aspect of instruction. You are probably quite aware of the many current controversial topics in literacy such as assessment, the use of technology, and approaches to the teaching of reading skills. This new edition of Issues and Trends in Literacy Education was organized around a number of the most critical questions in the current field. Articles in each of these areas were selected primarily on the basis of providing you, the reader, with the latest information as well as varying opinions on a wide variety of literacy topics. One of the primary goals of this book is for you to use these readings as a “ springboard ” for further investigation in topics that interest you related to effective literacy instruction. Each of the chapters includes a selection of related readings for additional study in a particular area of reading education. These can be used for in-depth study as well as a basis for personal research and writing of related class papers and presentations. The field of literacy education is a rapidly expanding and changing area in education. We hope you find the materials in this book to be both challenging and interest as you continue your study of this field. Thank you, Dick Robinson Mike McKenna

This text is a must-read for preservice teachers, in-service teachers, graduate students of literacy and related fields, and alternative teaching candidates seeking reading endorsement or certification."--BOOK JACKET.

As classrooms across the globe become increasingly more diverse, it is imperative that educators understand how to meet the needs of students with varying demographic backgrounds. Emerging Issues and Trends in Education presents case studies from academics who have all at one point been teachers in K – 12 classrooms, addressing topics such as STEM as well as global issues related to race, gender education, education policy, and parental engagement. The contributors take an international approach, including research about Nigerian, Chinese, Native American, and Mexican American classrooms. With a focus on multidisciplinary perspectives, Emerging Issues and Trends in Education is reflective of the need to embrace different ways of looking at problems to improve education for all students.

This volume explores and evaluates community-based literacy programs, examining how they bridge gaps in literacy development, promote dialogue, and connect families, communities, and schools. Highlighting the diversity of existing literary initiatives across populations, this book brings together innovative and emerging scholarship on the relationship between P20 schools and community-based literacy programming. This volume not only identifies trends in research and practice, but it also addresses the challenges affecting these community-based programs and presents the best practices that emerge from them. Collaborating with leading scholars to provide national and international perspectives, and offering a clear, birds-eye view of the state of community literacy praxis, chapters cover programming in a multitude of settings and for a wide range of learners, from early childhood to incarcerated youths and adults, and including immigrants, refugees, and indigenous communities. Topics include identity and empowerment, language and literacy development across the lifespan, rural and urban environments, and partnership programs. The breadth of community literacy programming gathered in a single volume represents a unique array of models and topics, and has relevance for researchers, scholars, graduate students, pre-service educators, and community educators in literacy.

"This book combines practical and effective classroom practices with the latest technological research findings utilized in literacy instruction"--Provided by publisher.

"This book offers a look at the latest research within digital literacy and competence, setting the bar for the digital citizen of today and tomorrow"--Provided by publisher.

This book showcases hot topics in literacy, providing teachers with practices for literacy improvement. The international scholars which comprise the author line-up for this edited collection describe the evidence-based research findings from their research in K-12 schools to demonstrate how literacy success is fostered across the globe.
