Last year, author Lysa TerKeurst released the book *Made to Crave*, providing the Biblical answer to why people diet, regain the weight they lose, and continue to find themselves stuck in this vicious cycle. *Made to Crave* helped thousands of people finally achieve victory in their weight loss journey. But, according to TerKeurst, "We need more than 19 chapters to stay motivated and on track. That's why I wrote this daily devotional with 60 inspirational entries. There is plenty of new material not in the original book. Rest assured, I also included your favorite nuggets of wisdom from *Made to Crave*." Just like the *Made to Crave* book, this *Made to Crave Devotional* is not a how-to get healthy book. It is the road to finding the lasting "want to" that extends far beyond the surface issues of weighing less and wanting to wear a smaller clothes size. Says TerKeurst: "There's a spiritual battle going on. It's real. And it's amazing how perfectly the Bible gives us specific ways to find victory with our food struggles. "Even for girls who don't crave carrots."

Most macroeconomists agree that we live in the age of microfoundations. The recent worldwide financial crisis may have emboldened critics of this microfoundational orthodoxy, but it remains the dominant view that macroeconomic models must go beyond supply and demand functions to the level of individual decision-making, taking into account the general dynamic environment where agents live. *Microfoundations Reconsidered* seeks to reassess how the relationship of micro and macroeconomics evolved over time. The highly regarded contributors to the book argue that the standard narrative of microfoundations is likely to be unreliable. They therefore re-examine the history of the relationship of microeconomics and macroeconomics, starting from their emergence as self-consciously distinct fields within economics in the early 1930s. They seek to go beyond the conventional history that is often told and written by practicing economists. From different perspectives they challenge the association of microfoundations with Robert Lucas and rational expectations and offer both a more complete and a deeper reading of the relationship between micro and macroeconomics. *Microfoundations Reconsidered* is a valuable addition to the macroeconomic research literature. It is ideally suited to students, scholars, researchers, and practitioners with an interest in macro and microeconomics and the history of economics.

**FLOUR POWER** When Hollywood invades Savannah's historic district to film a Revolutionary War movie, magical baker Katie Lightfoot, and her witches' coven, the Spellbook Club, take a break from casting spells for casting calls. One of the witches snags a part as an extra, while Katie's firefighter boyfriend, Declan, acts as on-set security. Katie and her aunt Lucy decide to stay out of the action, but after the movie's "fixer" fires the caterer, the Honeybee Bakery comes to the rescue, working their magic to keep the hungry crew happy. But when someone fixes the fixer permanently and a spooky psychic predicts Katie will find the killer, the charming baker and her fellow conjurers step in to sift through the suspects before someone else winds up on the cutting room floor.
