The Theory Books of the DAVID CARR GLOVER PIANO LIBRARY are written in "programed instruction" style, one of the most effective means of learning in modern education. Programed instruction is based on three generally accepted principles: 1. The material is presented in small steps called "frames." 2. The student makes an immediate written response to each frame so that his learning is constantly checked. 3. The student knows if his answer is correct. The Theory Books are written for the Preparatory Age piano student. However, the fundamentals of music are presented in a logical order making the books useful for any beginner. The Theory books are correlated to the DAVID CARR GLOVER PIANO LIBRARY, but can be used with any course on music of this level of advancement.

Consists of five levels (primer through level 4), each of which include four books of study covering lessons, theory, technic, and performance.

The Sight Reading series is a valuable new addition to the Neil A. Kjos Piano Repertoire Library. As they say, "You learn to sight read by doing it!" This series includes piano music of various textures and styles to be used to improve student sight reading, as well as overall reading skills beginning at the elementary level. The series is useful as a supplement to any course of study and includes original music by Diane Hidy (Prep. to Level 1) and Snell editions of works (Levels 2 to 4) by composers of the 17th through early 20th centuries. The works are brief enough for students to quickly read during their practice. They are also useful as "short study" pieces that can be practiced, but only for a few days, or at most a couple of weeks. The music is not intended for performance, but rather to improve students' ability to learn new music quickly and efficiently. - Publisher.

(Educational Piano Library). From the very first lessons in Book 1, students are making music as they explore the piano keyboard through fun improvisation pieces called My Own Song . The beginning of the book introduces finger numbers, the black-key and white-key groups, and basic rhythm patterns. Directional reading is taught first by finger number, then by note name, and then by interval (stop, skip, and repeat). Once the students are introduced to the staff, they learn reading guides Bass F and Treble G and read by interval in several different hand positions.
