Non-destructive evaluation (NDE) methods have dominated most of the fields of applied research and technology over the last twenty years. These techniques provide information on the functional efficiency of materials and structures without causing any structural impact on the structure itself. Their use enables the monitoring of the structural inte
A practical guide to facial-feminization surgery for the male who is transitioning to female, this book focuses on a pioneering form of cosmetic surgery that reshapes the male facial structure. Dramatic before and after photographs and detailed illustrations of each surgery show how reconstructive surgery recontours the brow and nose ridge, reduces the size of the jawbone and chin, and reshapes the trachea to eliminate the Adam's apple.

In Clues in the Calico Barbara Brackman unveils a much-needed system for dating America's heirloom quilts. She tells how, by collecting and observing quilts and finally analyzing her computer file on close to 900 date-inscribed specimens, she arrived at the system. And through this telling she also imparts a colorful, stunningly illustrated history of quiltmaking along with a good bit of entertaining social history and the newest findings in textile research.

This book is for team members and managers who use Microsoft Project Server 2010 to collaborate on projects by entering progress on tasks, contributing to Project sites, and accessing views and data in the system. If you dont expect your team members and executives to crawl though large books to find the golden nuggets they need to use the software effectively, give them this book instead--it focuses on this audience in a concise and compact presentation. After four generations of Project Server, this remains the only book specifically tailored for this group.
