A real-world guide to Attachment Parenting from **The Big Bang Theory** actress, neuroscientist, and mother Mayim Bialik—a book hailed by Dr. William Sears as “delightful” and by Ricki Lake as “a fantastic guide to birth and parenting that is packed with invaluable wisdom.” **Mayim Bialik** was the child star of the popular 1990s TV sitcom Blossom, but she definitely didn't follow the typical child-star trajectory. Instead, Mayim got her PhD in neuroscience from UCLA, married her college sweetheart, and had two kids. Mayim then did what many new moms do—the read a lot of books, talked with other parents, and she soon started questioning a lot of the conventional wisdom she heard about the “right” way to raise a child. That's when she turned to Attachment Parenting, a philosophy and lifestyle popularized by well-known physicians like Dr. William Sears and Dr. Jay Gordon. To Mayim, Attachment Parenting's natural, child-led approach not only felt right emotionally, it made sense intellectually and instinctually. She found that when she followed her intuition and relaxed into her role as a mother instead of following some rigid parenting script, both she and her children thrived. Taking into account her experience as a mother (and her scientific background), Mayim presents the major tenets of Attachment Parenting, including: Baby wearing: How to “wear” your baby in a sling or a wrap to foster a closer bond with your child—it's possible even for mamas with bad backs (and with big babies)! Breastfeeding: Learn how to listen to your baby's cues rather than sticking to a rigid schedule—and why people on airplanes love a nursing mother! Gentle discipline: How to get your child to behave without yelling, threats, or time-outs—it really is possible. Co-sleeping: How to avoid “sleep training” and get a great night's sleep for the whole family. Without the pretense and luxuries typical of so many Hollywood actors and parents, Mayim describes the beauty, simplicity, and purposefulness of Attachment Parenting, and how it's become the guiding principle for her family. Much more than a simple how-to parenting guide, **Beyond the Sling** shows us that the core principles underlying Attachment Parenting are universal and can be appreciated no matter how you decide to raise your child.

**Mayim Bialik**, Jeopardy! host and star of **The Big Bang Theory**, puts her Ph.D. to work as she talks to teens about the science of growing up and getting ahead. A must-have book for all teenage girls. Growing up as a girl in today's world is no easy task. Juggling family, friends, romantic relationships, social interests and school... sometimes it feels like you might need to be a superhero to get through it all! But really, all you need is little information. Want to know why your stomach does a flip-flop when you run into your crush in the hallway? Or how the food you put in your body now will affect you in the future? What about the best ways to stop freaking out about your next math test? Using scientific facts, personal anecdotes, and wisdom gained from the world around us, **Mayim Bialik**, the star of **The Big Bang Theory**, shares what she has learned from her life and her many years studying neuroscience to tell you how you grow from a girl to a woman biologically, psychologically and sociologically. And as an added bonus, **Girling Up** is chock-full of charts, graphs and illustrations -- all designed in a soft gray to set them apart from the main text and make them easy to find and read. Want to be strong? Want to be smart? Want to be spectacular? You can! Start by reading this book. Praise for **Girling Up**: "Bialik is encouraging without being preachy . . . many teens will be drawn to this engaging and useful book." --Booklist "Ultimately, the author stresses that 'Girling Up' does not end with adulthood—it is a lifelong journey. Thanks to Bialik, readers have a road map to make this trip memorable." --School Library Journal "Written in conversational style . . . the tone remains understanding, supportive, and respectful of the reader's individuality throughout the text." --VOYA
