This is part of a six-level English course (foundation-level to level five) for pupils between five and 12-years-old. The course employs a twin-track structure that enables teachers to underpin students' language development with a rigorous skills programme. There are two pupil's books at each level: a skills book, covering

# Acces PDF Nelson English Teacher S Resource Book 5

comprehension (with emphasis on literal), grammar, punctuation, vocabulary and spelling; and a development book, covering comprehension (with emphasis on inferential), the craft of quality writing, forms of writing, styles of writing and composition skills. Each level also has a teacher's resource book which supports both tracks, includes photocopiable activity sheets and correlations for all UK curricula, suggests strategies for developing listening and speaking skills, and helps support record-keeping and assessment.

Nelson English International is a structured English course, which has been specifically developed to meet the requirements of overseas students.

The Teachers Resource Book will show how the course provides an underpinning structure to the teaching of English, focusing particularly on the knowledge, skills and understanding of writing, while giving ample opportunity for reading, listening and speaking.

Clear structure and presentation - designed for easy and effective classroom delivery  
Draws together components from the whole programme and provides guidance on how to use them effectively  
For each unit the NLS objectives are stated providing you with the reassurance that the curriculum is comprehensively covered

Each pair of units is supported by the Teachers Guide. The Teachers Guide fully supports the programme giving all the guidance you need to help you pupils work through the two pupil books. In the Teachers Guide there are suggestions for homework and independent study.

need to help you pupils work through the two pupil books. In the Teachers Guide there are suggestions for homework and independent study.

Nelson English International teaches the skills and craft of quality writing, catering for the 6-12 year age range, and provides a six year programme of study. It is easily managed in the classroom, with three components at each level: a student textbook; a student workbook; and a teacher resource book. The student textbook gives a thorough coverage of the key skills of grammar, spelling, punctuation, comprehension and vocabulary building. The units are designed to build pupils' knowledge of these language skills and apply them in their written tasks, with the aim of writing effectively for a wide range of purposes. Planning, drafting, revising and editing copy are all covered in developing these writing skills. Students are also taught to understand the characteristics of different styles and forms of writing. .

The Teacher Resource Books are the ideal companion to the pupils' resources and provide your key to the successful implementation of Nelson English.
