Pantone ® Matching System Color Chart PMS Colors Used For Printing Labels. This chart is intended as a reference guide only. PANTONE Computer Video simulations displayed may not exactly match PANTONE®-identified color standards. Use current PANTONE Color Publications for most accurate color.

[PMS Color Chart](#)

The whole purpose of the Pantone Matching System (PMS) is to create predictable colors that can be created with mixed inks on a printing press. This way, designers, clients and printers can talk to each other and agree on a specific PMS color by simply looking at the color swatch books, picking a color (say PMS 300), and everyone knows it will actually be that color on the paper when printed.
