Paediatric emergencies—Oxford Medicine

The purpose of these guidelines for the classification of pediatric emergency services is (a) to allow any given community to identify the level of care available for the critically injured or ill pediatric patient, and (b) provide guidance to hospitals and EMS systems as to the resources necessary to provide optimal care to these children.

Pediatric Emergencies | American Academy of Pediatrics

12GUIDELINES FOR THE MANAGEMENT OF PAEDIATRIC EMERGENCIES Make up a solution of 1 unit per ml. of human soluble insulin by adding 50 units (0.5 ml) insulin to 50 ml 0.9% saline in a syringe pump. Attach this using a Y-connector to the IV fluids already running. Do not add insulin directly to the fluid bags.
