With the view that children are capable young scientists, authors encourage science teaching in ways that nurture students' curiosity about how the natural world works including research-based approaches to support all K-5 children constructing scientific explanations via talk and writing. Grounded in NSF-funded research, this book/DVD provides K-5 teachers with a framework for explanation (Claim, Evidence, Reasoning) that they can use to organize everything from planning to instructional strategies and from scaffolds to assessment. Because the framework addresses not only having students learn scientific explanations but also construct them from evidence and evaluate them, it is considered to build upon the new NRC framework for K-12 science education, the national standards, and reform documents in science education, as well as national standards in literacy around argumentation and persuasion, including the Common Core Standards for English Language Arts (Common Core State Standards Initiative, 2010). The chapters guide teachers step by step through presenting the framework for students, identifying opportunities to incorporate scientific explanation into lessons, providing curricular scaffolds (that fade over time) to support all students including ELLs and students with special needs, developing scientific explanation assessment tasks, and using the information from assessment tasks to inform instruction.

This book features Ranking Task exercises - an innovative type of conceptual exercise that challenges readers to make comparative judgments about a set of variations on a particular physical situation. Two-hundred-and-eighteen exercises encourage readers to formulate their own ideas about the behavior of a physical system, correct any misconceptions they may have, and build a better conceptual foundation of physics. Covering as many topic domains in physics as possible, the book contains Kinematics Ranking Tasks, Force Ranking Tasks, Projectile and Other Two-Dimensional Motion Ranking Tasks, Work-Energy Ranking Tasks, Impulse-Momentum Ranking Tasks, Rotation Ranking Tasks, SHM and Properties of Matter Ranking Tasks, Heat and Thermodynamics Ranking Tasks, Electrostatics Ranking Tasks, DC Circuit Ranking Tasks, Magnetism and Electromagnetism Ranking Tasks, and Wave and Optics Ranking Tasks. For anyone who wants a better conceptual understanding of the many areas of physics.

Amusement park physics gives teachers a gamut of subjects ranging from ways to incorporate amusement parks in classroom work to practical suggestions for taking a class to Physics Day. In between are methods of collecting data and approaches to analyzing it.

When a bad day at work culminates in losing out on a promotion, Jim Sanders shifts into his animal form to let off steam. Then his bad day turns into a bad night-while prowling his Atlantic City neighborhood as a large gray house cat, he's caught in a torrential downpour. What little luck he has washes down the gutter when his new boss, Andrew Wright, catches him taking shelter on his porch, brings him inside, and starts calling him Mr. Frosty. As a feline, Jim becomes the inadvertent confessor for his boss's lonely son, Tony, a victim of schoolyard bullying. As a human, he feels drawn to Andrew, a man he wanted to resent. Finding love was never part of Jim's plan for the future-not with his bizarre secret-yet suddenly he finds himself navigating that minefield anyway. But not everything is easy, especially for an interracial gay couple dealing with prejudice in the workplace, at Tony's school, and even within their own families.

Whether you're an adventure junkie, road-tripper, or card shark, Nevada has something for you. Pull off the perfect trip to the Silver State with Moon Nevada. Inside you'll find: Strategic itineraries for road-trippers, campers, skiers, and more The best road trips through Nevada, from three days on "the loneliest road in America" to a week covering Death Valley and the Extraterrestrial Highway, plus detailed information on travel times, distances, and directions The top sights and unique experiences: Explore caves and glaciers at Great Basin National Park, or go fishing, swimming, or boating on Lake Tahoe or Lake Mead. Marvel at the Hoover Dam, camp at a secluded alpine lake, and experience the authentic Wild West in a ghost town saloon. Try your hand at a slot machine and eat your way through an epic Las Vegas buffet, or visit one of Nevada's major festivals and shop for local turquoise jewelry in a Gold Rush town Local tips from longtime Nevadan Scott Smith on where to stay, when to go, and how to get around, plus advice for families with children and travelers with disabilities Full-color photos and detailed maps throughout Thorough background information on the landscape, climate, wildlife, and local culture Focused coverage of Reno, Las Vegas, Death Valley, Tahoe, Central Nevada, Elko, the Ruby Mountains, and more With Moon Nevada's practical tips and local insight, you can plan your trip your way. Spending more time at the lake? Try Moon Tahoe. Headed to the parks? Try Moon Yosemite National Park or Moon Death Valley National Park.

Siblings of special-needs children discuss hopes, fears, frustrations, resentment, and triumphs regarding their life with their siblings.
