It may sound counter-intuitive to plan backwards rather than forwards, but when you're planning your life from the end result, it's often more useful to consider the last step and work your way back to the first. This is actually a valuable and practical strategy for making your vision a reality.

[The Best Way to Create a Vision for the Life You Want](#)

Keep in mind, Life Planning is a relatively new concept in the financial planning world, and is an off-shoot of the financial planning we all think of. Life Planning uses the basic financial planning process and inputs as a jumping off point to help folks better plan the next stages of their lives (retired or otherwise). Life Planning is more in-depth and focused to what makes the individual (or individuals if a spouse/partner is involved) tick -- what really gets them excited about life.

[How much money do you need to live the life you desire? - BBC](#)

You are young and full of life.! You want to explore everything humanly but you always have to choose between one thing or the other.! You want to buy a car, a house, you want to get married and have a family, you want to have your doctorate degree in your field of study. But you have to choose what you really need first before the other.
