Michael Bates (Sealand) - Wikipedia

The Princes are third generation royals of the Principality of Sealand, an independent sovereign nation found in the North Sea near the port city of Harwich in England. The Principality was founded in 1967 when their grandfather, Prince Paddy Roy Bates, stormed the former military fortification and ejected the current occupiers at that time.

Tower it was built in the sea by the British Royal Navy, and later became Sealand. It is very small. There is only room for 300 people on it.

A “thoroughly researched, stranger-than-fiction” history of the world’s tiniest rebel nation, filled with intrigue, armed battles, and radio pirates (Robert Jobson, author of *Prince Philip’s Century*). In 1967, a retired army major and self-made millionaire named Paddy Roy Bates cemented his family’s place in history when he inaugurated himself ruler of the Principality of Sealand, a tiny

dominion of the high seas. And so began the peculiar story of the world's most stubborn micronation on a World War II anti-aircraft gun platform off the British coast. Sealand is the raucous tale of how a rogue adventurer seized the disused Maunsell Sea Fort from pirate radio broadcasters, settled his eccentric family on it, and defended their tiny kingdom from UK government officials and armed mercenaries for half a century. Incorporating original interviews with surviving Sealand royals, Dylan Taylor-Lehman recounts the battles and schemes as Roy and his crew engaged with diplomats, entertained purveyors of pirate radio and TV, and even thwarted an attempted coup that saw the Prince Regent taken hostage. Incredibly, more than fifty years later, the self-proclaimed independent nation still stands—replete with its own constitution, national flag and anthem, currency, and passports. Featuring rare

vintage photographs of the Bates clan and their unusual enterprises, this account of a dissident family and their outrageous attempt to build a sovereign kingdom on an isolated platform in shark-infested waters is the stuff of legend. “Memorable . . . This idiosyncratic history entertains.” ?Publishers Weekly “Endlessly captivating, like a thriller, and filled with crisp, evocative writing. Now, you’ll have to excuse me, I’m visiting the principality to become an official ‘Lord of Sealand.’” ?Bob Batchelor, author of The Bourbon King

An Englishwoman is found dead in a house near Rome, her neck broken. Her distraught husband enlists the help of his closest friend, policeman Chris Bronson, who discovers an ancient inscription on a slab of stone above their fireplace. It translates as 'Here Lie the Liars.' Pursued across Europe, Bronson and his ex-wife uncover a trail of clues that lead them back to the shadowy beginnings of Christianity; to an ancient code inscribed upon a stone; to a chalice decorated with mysterious symbols. And to a deadly conspiracy which will rock the foundations of our modern world if revealed.

advertising from corporations to the individual. By the end of the millennium, the notion of selling tech burst wide open to include robots, cell phones, blogs, online dating services, and much, much more. *Do You Compute?* is a broad survey featuring the very best of computer advertising in the 20th century. From the Atomic Age to the Y2K bug, this volume presents a connoisseur's selection of graphic gems culled from museums, university archives, and private collections to illustrate the evolution of the computer from its early days as a hulking piece of machinery to its current state as a handheld device. Accompanied by two essays--one by cultural anthropologist Ryan Mungia and the other by graphic design historian Steven Heller--and including five different decade-long timelines that highlight some of the most influential moments in computer history, this fun yet meaningful volume is a unique look
