Help your students to get more comfortable with the concept of probability with this deck of Probability Spinner Matching with Fractions Game. This deck of 30 cards contains 15 circle/pie graphs with segments of different colours, as well as 15 cards with probability statistics written on them, such as "3/4 chance to land on red". This deck of cards probability activity can be used in a variety of ...

Probability Spinner Matching with Fractions Game

So now we have a working probability spinner! However, to make this more true to life, we can adjust to motor speeds to make it appear to slow down. Here we have set a variable called 'speed' to 100. After turning the motors for a random amount of time, we slow them down to a complete stop by repeatedly subtracting an amount between 1 and 10 from the motor speed until the speed is less ...

Blank Spinners for Probability Activities

In edit mode, you can use the probability spinner however you want. For example to generate random numbers, or probability experiments. In this mode the controls to change the number of sides on each spinner are visible. Game modes. The game modes use the spinner values, this means that they really require at least two spinners and the challenges are hardest with four spinners. In the game ...

Probability spinner, adjustable classroom random number ...

The probability of spinning a '1' is $\frac{3}{8}$. The spinner will land on a '1' three times out of every eight. The probability of the spinner landing on a number is equal to the fraction of the spinner that this number occupies. We will write the probability of spinning a '1' or a '3' as a fraction.
