The world is in ruins and the Reckoners are walking the earth, but that won't stop your hero. Players can investigate the ruins of this new world as a syker, soldier, technomage, or radiation priest. Do you have what it takes to survive the hostile wastes? Okay, our Marshal's screen can't really keep out rads or g-rays (ghost-rock rays), but it does bar the posse from nosing through your secrets, and it puts all the

most-used charts and tables in one handy place. There's even a way-cool, full-length adventure pitting the posse against the forces of the Combine.

"The Marshal's Handbook is the setting book for Deadlands Reloaded." -- From back cover

The world is in ruins and the Reckoners are walking the earth, but that won't stop your hero. Players can investigate the ruins of this new world as a syker, soldier, technomage, or radiation priest. Do you have what it takes to survive the hostile wastes? Our first Dime Novel for the Wasted West features Teller, a taleteller who does more than just talk. Accompanied by Tasha, a savage girl raised after the Apocalypse, Teller struggles to stop a war between norms and muties that was triggered by the appearance of a ravenous servitor of the Reckoners.

The war in Iraq empties the small town of Tumalo, Oregon, of men—of fathers—leaving their sons to fight among themselves. But the boys' bravado fades at home when, alone, they check e-mail again and again for word from their fathers at the front. Often from fractured homes and communities, the young men in these breathless stories do the unthinkable to prove to themselves—to everyone—that they are strong enough to face the heartbreak in this world. Set in rural Oregon with the shadow of the Cascade Mountains hanging over them, these stories bring you face-to-face with a mad bear, a house with a basement that opens up into a cave, a nuclear meltdown that renders the Pacific Northwest into a contemporary Wild West. Refresh, Refresh by Benjamin Percy is a bold, fiery, and unforgettable collection that deals with vital issues of our time.

In Benjamin Percy's new thriller, a post-apocalyptic reimagining of the Lewis and Clark saga, a super flu and nuclear fallout have made a husk of the world we know. A few humans carry on, living in outposts such as the Sanctuary—the remains of St. Louis—a shielded community that owes its survival to its militant defense and fear-mongering leaders. Then a rider comes from the wasteland beyond its walls. She reports on the outside world: west of the Cascades, rain falls, crops grow, civilization thrives. But there is danger too: the rising power of an army that pillages and enslaves every community they happen upon. Against the wishes of the Sanctuary, a small group sets out in secrecy. Led by Lewis Meriwether and Mina Clark, they hope to expand their infant nation, and to reunite the States. But the Sanctuary will not allow them to escape without a fight.

Three men had broken into the laboratories of Atomic Power Inc., killing three guards and stealing a new formula for the control of atomic fission. They had inside help: someone had given them the guard schedule and a plan of the laboratories. The one substantial clue was that the spy cameras had caught the thieves, and one of them had forgotten to shield his face. Across his forehead was the dark streak of an indelible brand: the debtor's mark! Private investigator Jim Carter knows that mark well, but what he does not know is that by accepting the case, he has already marked himself for death! Six great science fiction crime and suspense stories from a master storyteller.

From the critically acclaimed author of *The 25th Hour* and *When the Nines Roll Over* and co-creator of the HBO series *Game of Thrones*, a captivating novel about war, courage, survival — and a remarkable friendship that ripples across a lifetime. During the Nazis' brutal siege of Leningrad, Lev Beniov is arrested for looting and thrown into the same cell as a handsome deserter named Kolya. Instead of being executed, Lev and Kolya are given a shot at saving their own lives by complying with an outrageous directive: secure a dozen eggs for a powerful Soviet colonel to use in his daughter's wedding cake. In a city cut off from all supplies and suffering unbelievable deprivation, Lev and Kolya embark on a hunt through the dire lawlessness of Leningrad and behind enemy lines to find the impossible. By turns insightful and funny, thrilling and terrifying, the New York Times bestseller *City of Thieves* is a gripping, cinematic World War II adventure and an intimate coming-of-age story with an utterly

contemporary feel for how boys become men.

A post-apocalyptic novel set in the nuclear wastelands of America from the Grand Master of Science Fiction and author of the Lankhmar series. Ray is armed and dangerous, suspicious of everyone he comes across in the decimated Deathlands and willing to fight to the death as he scavenges for food and weapons. Into his life comes Alice, just as wary but whose intentions are not violent. The two drifters forge an uneasy truce, but their bloodlust will be tested when an old man—a former homicidal maniac—offers them something almost too painful to contemplate: hope. “A dark, edgy story, Leiber deconstructs the madness of such aggression in turns overt and subtle. . . . The character study of a killer paranoid everyone is out to kill him . . . A hard-edged, slightly satirical look at mankind’s propensity toward murder in the context of free choice.” —Speculiction “Vividly describes a horrifying possible future America where nuclear war has ravaged the land and the human brain.” —Fantasy Literature

Nuclear war, dystopian unrest, a genetic mutation that divides twins in life and unites them in death—the “refreshingly nuanced” (Booklist, starred review) first novel in award-winning poet Francesca Haig’s richly imagined and action-packed post-apocalyptic trilogy “is poised to become the next must-read hit” (Kirkus Reviews, starred review). Four hundred years after a nuclear apocalypse, all humans are born in pairs: the deformed Omegas, who are exploited and oppressed, and their Alpha twins, who have inherited the earth—or what’s left of it. But despite their claims of superiority, the Alphas cannot escape one harsh fact: whenever one twin dies, so does the other. Cass is a rare Omega whose mutation is psychic foresight—not that she needs it to know that as her powerful twin, Zach, ascends the ranks of the ruling Alpha Council, she’s in grave danger. Zach has a devastating plan for Omega annihilation. Cass has visions of an island where a bloody Omega resistance promises a life of freedom. But her real dream is to discover a middle way, one that would bring together the sundered halves of humanity. And that means both the Council and the resistance have her in their sights.
