"A funny, raucous, eye-opening, wholly non-partisan trip in search of Americans who love their guns"--

Why is it so hard to make lasting changes in our companies, in our communities, and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller Made to Stick. Psychologists have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind—that compete for control. The rational mind wants a great beach body; the emotional mind wants that Oreos cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In Switch, the Heaths show how everyday people - employees and managers, parents and nurses - have united both minds and, as a result, achieved dramatic results. • The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients • The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping • The manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology, and other fields to shed new light on how we can effect transformative change. Switch shows that successful changes follow a pattern, a pattern you can use to make the changes that matter to you, whether your interest is in changing the world or changing your waistline.

Cutting across Chicago's South Side in a broad swath of concrete, steel, and overpasses, the Dan Ryan Expressway is one of America's busiest, and perhaps most chaotic highways. Yet underneath the cacophony of its ten lanes lies an intriguing world of urban ecology and human networks. In The Dan Ryan Expressway, artist and photographer Jay Wolke unearths an ecosystem unto itself that weaves human and industrial elements into an essential feature of Chicago's identity. Between 1981 and 1985, Wolke shot thousands of photographs on and along the Dan Ryan during the day and night, traveling up and down the expressway in an effort to accurately capture it. In the twenty years since the photographs were taken, Wolke has organized his pictures into a complex and fascinating portrait of this iconic highway, which he characterizes as an "arterial organism" with its own "cycles and flows, causes and effects." The book is a dynamic narrative that explores the Dan Ryan's enormous influence over the people who drive on it, the neighborhoods lined alongside it, and the industrial environs it weaves through. As Chicago transportation officials prepare to launch a massive renovation of the Dan Ryan Expressway, Wolke here presents a historical chronicle of the development of the Dan Ryan and its rapid integration into Chicago's urban life. His photographs create an arresting visual representation of the expressway that provides an important window into the structure of Chicago's urban landscape and culture. The Dan Ryan Expressway ultimately examines where the highway fits within the trope of the American road and explores how it became "a massive expression of the urban lexicon." "As chilling as Blade Runner--unfortunately this is not a dystopian vision set in a distant, fictional future--this is Chicago, and this is America now. The automobile has utterly changed the landscape and our lives--Jay Wolke has found a powerful way to record this historic transformation in this unique, important photographic achievement."--Joel Sternfeld

In this "refreshingly relatable" (Outside) memoir, perfect for the self-isolating family, Slate editor Dan Kois sets out with his family on a journey around the world to change their lives together. What happens when one frustrated dad turns his kids' lives upside down in search of a new way to be a family? Dan Kois and his wife always did their best for their kids. Busy professionals living in the D.C. suburbs, they scheduled their children's time wisely, and when they weren't arguing over screen time, the Kois family--Dan, his wife Alla, and their two pre-teen daughters--could each be found searching for their own happiness. But aren't families supposed to achieve happiness together? In this eye-opening, heartwarming, and very funny family memoir, the fractious, loving Kois' go in search of other places on the map that might offer them the chance to live away from home--but closer together. Over a year the family lands in New Zealand, the Netherlands, Costa Rica, and small-town Kansas. The goal? To get out of their rut of busyness and distractdness and to see how other families live outside the East Coast parenting bubble. HOW TO BE A FAMILY brings readers along as the Kois girls--witty, solitary, extremely online Lyra and gooly, sensitive, social butterfly Harper--like through the Kiwi bush, ride bikes to a Dutch school in the pouring rain, battle iguanas in their Costa Rican kitchen, and learn to love a town where everyone knows your name. Meanwhile, Dan interviews neighbors, public officials, and scholars to learn why each of these places work the way they do. Will this trip change the Kois family's lives? Or do families take their problems and conflicts with them wherever we go? A journalistic memoir filled with heart, empathy, and lots of whining, HOW TO BE A FAMILY will make readers dream about the amazing adventures their own families might take.
