Words from the achiever: “When I was in high school, there was a book by James MacGregor Burns, a wonderful historian, called The Lion and the Fox, about FDR. And it was about his personality, his character, his early years in Hyde Park, his polio experience. And I remember that so vividly as the first real, live history book that I love so much. And I later met him and have gotten to know him as a colleague, and he’s about 30 years older than I am, and I couldn’t wait to tell him ...

“A brilliant full-length portrait of Franklin Roosevelt the politician”—the first in an award-winning two-volume biography (The Christian Science Monitor), Franklin Delano Roosevelt was the longest serving president in United States history, reshaping the country during the crises of the Great Depression and World War II. But before his ascension to the presidency, FDR laid the groundwork for his unprecedented run with decades of canny political maneuvering and steady consolidation of power. In this remarkable New York Times–bestselling biography, Pulitzer Prize–winning historian James MacGregor Burns traces FDR’s rise and the peculiar blend of strength and cunning that made him such a uniquely transformative figure. Weaving together lively narrative and impressive scholarship, Burns reconstructs his youth and education at Groton and Harvard, his relationships with his cousins Theodore and Eleanor, his immersion in New York State politics, and his rise to national prominence, all the way through his first two terms as president, which saw the historic New Deal take hold and the drumbeats of World War II begin. A masterful, concise biography of Theodore Roosevelt, America’s first modern president New York State Assemblyman, Assistant Secretary of the Navy, Governor of New York, Vice President and, at forty-two, the youngest President ever—in his own words, Theodore Roosevelt “rose like a rocket.” In Lion in the White House, historian Aida Donald masterfully chronicles Roosevelt’s life and his presidency. TR’s accomplishments in office were immense. Believing that the emerging aristocracy of wealth represented a genuine threat to democracy, TR broke trusts to curb the rapacity of big business. He built the Panama Canal and engaged the country in world affairs. And he won the Nobel Peace Prize—the first sitting president ever so honored. Throughout his public career, TR fought valiantly to steer the GOP back to its noblest ideals as embodied by Abraham Lincoln. Alas, his hopes for his party were quashed by the GOP’s strong rightward turn in the years after he left office. But his vision for America lives on. In lapidary prose, this concise biography recounts the courageous life of one of the greatest leaders our nation has ever known.

NATIONAL BESTSELLER “A model presidential biography... Now, at last, we have a biography that is right for the man” —Jonathan Yardley, The Washington Post Book World One of today’s premier biographers has written a modern, comprehensive, indeed ultimate book on the epic life of Franklin Delano Roosevelt. In this superlative volume, Jean Edward Smith combines contemporary scholarship and a broad range of primary source material to provide an engrossing narrative of one of America’s greatest presidents. This is a portrait painted in broad strokes and fine details. We see how Roosevelt’s restless energy, fierce intellect, personal magnetism, and ability to project effortless grace permitted him to master countless challenges throughout his life. Smith recounts FDR’s battles with polio and physical disability, and how these experiences helped forge the resolve that FDR used to surmount the economic turmoil of the Great Depression and the wartime threat of totalitarianism. Here also is FDR’s private life depicted with unprecedented candor and nuance, with close attention paid to the four women who molded his personality and helped to inform his worldview: His mother, Sara Delano Roosevelt, formidable yet ever supportive and tender; his wife, Eleanor, whose counsel and affection were instrumental to FDR’s public and individual achievements; Lucy Mercer, the great romantic love of FDR’s life; and Missy LeHand, FDR’s longtime secretary, companion, and confidante, whose adoration of her boss was practically limitless. Smith also tackles head-on and in-depth the numerous failures and miscues of Roosevelt’s public career, including his disastrous attempt to reconstruct the Judiciary; the shameful internment of Japanese-Americans; and Roosevelt’s occasionally self-defeating Executive overreach. Additionally, Smith offers a sensitive and balanced assessment of Roosevelt’s response to the Holocaust, noting its breakthroughs and shortcomings. Summing up Roosevelt’s legacy, Jean Smith declares that FDR, more than any other individual, changed the relationship between the American people and their government. It was Roosevelt who revolutionized the art of campaigning and used the burgeoning mass media to garner public support and ally fears. But more important, Smith gives us the clearest picture yet of how this quintessential Knickerbocker aristocrat, a man who never had to depend on a paycheck, became the common man’s president. The result is a powerful account that adds fresh perspectives and draws profound conclusions about a man whose story is widely known but far less well understood. Written for the general reader and scholars alike, FDR is a stunning biography in every way worthy of its subject.

“With this profound and magnificent book, drawing on his deep reservoir of thought and expertise in the humanities, James MacGregor Burns takes us into the fire’s center. As a 21st-century philosopher, he brings to vivid life the incandescent personalities and ideas that embody the best in Western civilization and shows us how understanding them is essential for anyone who would seek to decipher the complex problems and potentialities of the world we will live in tomorrow.” —Michael Beschloss, New York Times bestselling author of Presidential Courage: Brave Leaders and How They Changed America, 1789-1989 “James MacGregor Burns is a national treasure, and Fire and Light is the elegiac capstone to a career devoted to understanding the seminal ideas that made America - for better and for worse - what it is.” --Joseph J. Ellis, Pulitzer Prize and National Book Award winning author Revolutionary Summer Pulitzer Prize-winning and bestselling historian James MacGregor Burns explores the most daring and transformational intellectual movement in history, the European and American Enlightenment In this engaging, provocative history, James MacGregor Burns brilliantly illuminates the two-hundred-year conflagration of the Enlightenment, when audacious questions and astonishing ideas tore across Europe and the New World, transforming thought, overturning governments, and inspiring visionary political experiments. Fire and Light brings to vivid life the galaxy of revolutionary leaders of thought and action who, armed with a new sense of human possibility, driven by a hunger for change, created the modern world. Burns discovers the origins of a distinctive American Enlightenment in men like the Founding Fathers Benjamin Franklin, John Adams, Thomas Jefferson, and James Madison, and their early encounters with incendiary European ideas about liberty and equality. It was these thinker-activists who framed the United States as a grand and continuing experiment in Enlightenment principles. Today the same questions Enlightenment thinkers grappled with have taken on new urgency around the world: in the turmoil of the Arab Spring, in the former Soviet Union, and China, as well as in the United States itself. What should a nation be? What should citizens expect from their government? Who should lead and how can leadership be made both effective and accountable? What is happiness, and what can the state contribute to it? Burns’s exploration of the ideals and arguments that formed the bedrock of our modern world shines a new light on these ever-important questions.

Burns’s exploration of the ideals and arguments that formed the bedrock of our modern world shines a new light on these ever-important questions.

“With this profound and magnificent book, drawing on his deep reservoir of thought and expertise in the humanities, James MacGregor Burns takes us into the fire’s center. As a 21st-century philosopher, he brings to vivid life the incandescent personalities and ideas that embody the best in Western civilization and shows us how understanding them is essential for anyone who would seek to decipher the complex problems and potentialities of the world we will live in tomorrow.” —Michael Beschloss, New York Times bestselling author of Presidential Courage: Brave Leaders and How They Changed America, 1789-1989 “James MacGregor Burns is a national treasure, and Fire and Light is the elegiac capstone to a career devoted to understanding the seminal ideas that made America - for better and for worse - what it is.” --Joseph J. Ellis, Pulitzer Prize and National Book Award winning author Revolutionary Summer Pulitzer Prize-winning and bestselling historian James MacGregor Burns explores the most daring and transformational intellectual movement in history, the European and American Enlightenment In this engaging, provocative history, James MacGregor Burns brilliantly illuminates the two-hundred-year conflagration of the Enlightenment, when audacious questions and astonishing ideas tore across Europe and the New World, transforming thought, overturning governments, and inspiring visionary political experiments. Fire and Light brings to vivid life the galaxy of revolutionary leaders of thought and action who, armed with a new sense of human possibility, driven by a hunger for change, created the modern world. Burns discovers the origins of a distinctive American Enlightenment in men like the Founding Fathers Benjamin Franklin, John Adams, Thomas Jefferson, and James Madison, and their early encounters with incendiary European ideas about liberty and equality. It was these thinker-activists who framed the United States as a grand and continuing experiment in Enlightenment principles. Today the same questions Enlightenment thinkers grappled with have taken on new urgency around the world: in the turmoil of the Arab Spring, in the former Soviet Union, and China, as well as in the United States itself. What should a nation be? What should citizens expect from their government? Who should lead and how can leadership be made both effective and accountable? What is happiness, and what can the state contribute to it? Burns’s exploration of the ideals and arguments that formed the bedrock of our modern world shines a new light on these ever-important questions.
