In 2009, our data center energy team began to study power purchase agreements (PPAs): large-scale, long-term contracts to buy renewable energy in volumes that would meet the needs of our business.

This first report deals with some of the major development issues confronting the developing countries and explores the relationship of the major trends in the international economy to them. It is designed to help clarify some of the linkages between the international economy and domestic strategies in the developing countries against the background of growing interdependence and increasing complexity in the world economy. It assesses the prospects for progress in accelerating growth and alleviating poverty, and identifies some of the major policy issues which will affect these prospects.

Global Biomass Burning provides a convenient and current reference on such topics as the remote sensing of biomass burning from space, the geographical distribution of burning; the combustion products of burning in tropical, temperate, and boreal ecosystems; burning as a global source of atmospheric gases and particulates; the impact of biomass burning gases and particulates on global climate; and the role of biomass burning on biodiversity and past global extinctions."--Pub. desc.

The International Student Conference in Tourism Research (ISCONTOUR) offers students a unique platform to present their research and establish a mutual knowledge transfer forum for attendees from academia, industry, government and other organisations. The annual conference, which is jointly organized by the IMC University of Applied Sciences Krems and the Salzburg University of Applied Sciences, takes place alternatively at the locations Salzburg and Krems. The conference research chairs are Prof. (FH) Mag. Christian Maurer (University of Applied Sciences Krems) and Prof. (FH) Dr. Barbara Neuhofer (Salzburg University of Applied Sciences). The target audience include international bachelor, master and PhD students, graduates, lecturers and professors from the field of tourism and leisure management as well as businesses and anyone interested in cutting-edge research of the conference topic areas. The conference topics include marketing and management, tourism product development and sustainability, information and communication technologies, finance and budgeting, and human resource management.

Includes appendices.
