The Fatal Conceit: The Errors of Socialism is a book written by the economist and political philosopher Friedrich Hayek and edited by the philosopher William Warren Bartley. The book was first published in 1988 by the University of Chicago Press. Bruce Caldwell has questioned how far Bartley was the editor and how far the author. The title of the book is a reference to a passage from Adam Smith, in his *The Theory of Moral Sentiments*.

counter-argument in favor of
evolved systems of cooperation
and exchange known as the
extended order.
