dialect of Kurdish spoken originally in parts of Iran, Iraq, Syria, Turkey while also being common among a large diaspora of Kurds in Europe, North America and elsewhere. This comprehensive Kurmanji-English dictionary is prepared in two volumes by Michael L. Chyet, a renowned linguist with extensive knowledge of the major dialects of Kurdish. This dictionary is an essential reference source for linguists and others interested in Kurdish language and people. "The second edition of my Kurmanji-English dictionary, which I would like to call

“Ferhenga Birûskî” to honor the memory of my beloved friend and colleague Birûsk Tugan, contains considerably more entries, and in many cases offers fuller information on earlier entries. In addition, I have found and corrected several typographical errors. Moreover, it is to be accompanied by a companion English to Kurdish volume. [...] It is my goal to accurately reflect the language as it exists today, providing variant spellings, synonyms, and regional usage, as well as etymologies. The late Iranist D.N. MacKenzie advised me early on to avoid

"The Life of Samuel Johnson,
LL.D." (1791) is a biography

of Dr. Samuel Johnson
written by James Boswell. It
is regarded as an important
stage in the development of
the modern genre of
biography; many have claimed
it as the greatest biography
written in English. While
Boswell's personal
acquaintance with his
subject only began in 1763,
when Johnson was 54 years
old, Boswell covered the
entirety of Johnson's life
by means of additional
research. The biography
takes many critical
liberties with Johnson's
life, as Boswell makes
various changes to Johnson's
quotations and even censors
many comments. Regardless of

these actions, modern biographers have found Boswell's biography as an important source of information. The work was popular among early audiences and with modern critics, but some of the modern critics believe that the work cannot be considered a proper biography. James Boswell (1740-1795) was a lawyer, diarist, and author born in Edinburgh, Scotland. He is best known for the biography he wrote of one of his contemporaries, the English literary figure Samuel Johnson, which the modern Johnsonian critic Harold Bloom has claimed is the

in the English language.

Volume 6 looks at the ways historians have written the history of the region depending upon their methods of interpretation and differing styles of communicating their findings. The authors examine how the lingual diversity of the region has affected the historian's ability to coalesce an historical account. The second half of the volume describes the writing of history in the individual territories, taking into account changes in society, economy and political

structure. This volume concludes with a detailed bibliography that is comprehensive of the entire series.
