The " beautiful " novel that inspired the Showtime series, from a Nebula Award finalist (The New York Times). The Man Who Fell to Earth tells the story of Thomas Jerome Newton, an alien disguised as a human who comes to Earth on a mission to save his people. Devastated by nuclear war, his home planet, Anthea, is no longer habitable. Newton lands in Kentucky and starts patenting Anthean technology—amassing the fortune he needs to build a spaceship that will bring the last three hundred Anthean survivors to Earth. But instead of the help he seeks, he finds only self-destruction, sinking into alcoholism and abandoning his spaceship, in this poignant story about the human condition—which has inspired both a film starring David Bowie and the new series starring Chiwetel Ejiofor—by the acclaimed author of Mockingbird. " Beautiful science fiction . . . The story of an extraterrestrial visitor from another planet is designed mainly to say something about life on this one. " —The New York Times " An utterly realistic novel about an alien human on Earth . . . Realistic enough to become a metaphor for something inside us all, some existential loneliness. " —Norman Spinrad, author of The Iron Dream " Those who know The Man Who Fell to Earth only from the film version are missing something. This is one of the finest science fiction novels of its period. " —J. R. Dunn, author of This Side of Judgment

T.J. Newton, an extraterrestrial on a mission to save his home planet, crash lands on earth, where he is condemned to a life of loneliness as he tries to build another spaceship

Anoncé comme une "exp é rience repoussant les limites de l'esprit", L'Homme qui venait d'ailleurs (The Man Who Fell to Earth) de Nicolas Roeg, sorti en 1976, a sid é r é le monde du cin é ma. V é ritable coup de ma î tre dans l'art de la science fiction, le film n'a pas seulement provoqué des hallucinations visuelles et propos é une exploration obs é dante de la folie contemporaine, il a aussi permis à une l é gende du glam-rock, David Bowie, de faire ses d é buts d'acteur, dans le r ô le principal de l'extraterrestre parano î aque Newton. Inspir é du roman de science-fiction L'Homme tomb é du ciel (The Man Who Fell to Earth) sign é Walter Tevis, L'Homme qui venait d'ailleurs suit le destin de Newton, un extraterrestre d é barqué sur terre pour y trouver de l'eau : sa transformation en riche entrepreneur gr à ce aux technologies r é volutionnaires de sa plan è te d'origine, son é veil à la sexualit é avec la jeune Mary-Lou, puis la r é v é lation de son identit é d'extraterrestre, son emprisonnement, son abandon et son basculement vers l'alcoolisme. Dans tout le film, Roeg convainc par son s é duisante casting, dont Bowie bien s ũ r, excellent dans son personnage de voyageur de l'espace d é cal é , mais aussi Candy Clark, Rip Torn et Buck Henry, interpr è tes parfaits dans leur r ô le. Pour c é l é brer les 40 ans de ce film culte, Taschen sort son The Man Who Fell to Earth avec une profusion d'images extraites du film ou prises pendant le tournage par le photographe de plateau David James, y compris les nombreux clich é s d'un Bowie jouant à plein sur son ambigü t é .

Award-winning filmmaker and writer Sophia Al-Maria ' s The Girl Who Fell to Earth is a funny and wry coming-of-age memoir about growing up in between American and Gulf Arab cultures. Part family saga and part personal quest, The Girl Who Fell to Earth traces Al-Maria ' s journey to make a place for herself in two different worlds. When Sophia Al-Maria's mother sends her away from rainy Washington State to stay with her husband's desert-dwelling Bedouin family in Qatar, she intends it to be a sort of teenage cultural boot camp. What her mother doesn't know is that there are some things about growing up that are universal. In Qatar, Sophia is faced with a new world she'd only imagined as a child. She sets out to find her freedom, even in the most unlikely of places. The Girl Who Fell to Earth takes readers from the green valleys of the Pacific Northwest to the dunes of the Arabian Gulf and on to the sprawling chaos of Cairo. Struggling to adapt to her nomadic lifestyle, Sophia is haunted by the feeling that she is perpetually in exile: hovering somewhere between two families, two cultures, and two worlds. She must make a place for herself—a complex journey that includes finding young love in the Arabian Gulf, rebellion in Cairo, and, finally, self-discovery in the mountains of Sinai. The Girl Who Fell to Earth heralds the arrival of an electric new talent and takes us on the most personal of quests: the voyage home.

" SF writing of a rare quality " lifts this collection of stories from the renowned author of The Hustler and The Man Who Fell to Earth (Time Out). The author of the competitive pool thriller The Hustler and the groundbreaking sci-fi novel The Man Who Fell to Earth, Walter Tevis was also a master of the short story. His work was published in Playboy, Redbook, Cosmopolitan, and many other magazines. This anthology collects some of his best short work. Full of wit, surprise, dark humor, and deep emotion, these stories pack a punch—and are ideal for fans of his longer work or those looking for an introduction to one of America ' s most iconic sci-fi writers. " The poetic imprints of a fine writer ' s trail. " —The Times (London)

'Before there was Star Wars ... before there was Close Encounters ... there was The Man Who Fell To Earth.' - advertising tag line for 1981 reissue of the film. Earthbound is the first book-length exploration of a true classic of twentieth-century science-fiction cinema, shot under the heavy, ethereal skies of New Mexico by the legendary British director Nicolas Roeg and starring David Bowie in a role he seemed born for as an extraterrestrial named Thomas Newton who comes to Earth in search of water. Based on a novel by the highly regarded American writer Walter Tevis, this dreamy, distressing, and visionary film resonates even more strongly in the twenty-first century than it did on its original release during the year of the US Bicentennial. Drawing on extensive research and exclusive first-hand interviews with members of the cast and crew, Earthbound begins with a look at Tevis's 1963 novel before moving into a detailed analysis of a film described by its director as 'a sci-fi film without a lot of sci-fi tools' and starring a group of actors - Bowie, Buck Henry, Candy Clark, Rip Torn - later described by one of them (Henry) as 'not a cast but a dinner party.' It also seeks to uncover the mysteries surrounding Bowie's rejected soundtrack to the film (elements of which later ended up his groundbreaking 1977 album Low) and closes with a look at his return to the themes and characters of The Man Who Fell To Earth in one of his final works, the acclaimed musical production Lazarus.
