What is the definition of a user manual? A user manual is a technical communication document intended to give assistance to people on how to use a product. A good user manual assists users on how to use a product safely, healthily and effectively. Other names, or other forms of a user manual, might be: User guide; Technical documentation

User Manual Template and Guide to Create Your Own Manual ...

A user guide, also commonly called a technical communication document or manual, is intended to give assistance to people using a particular system. It is usually written by a technical writer, although user guides are written by programmers, product or project managers, or other technical staff, particularly in smaller companies. User guides are most commonly associated with electronic goods, computer hardware and software, although they can be written for any product.

Manuals | LG U.K.

The term ' manual ' or ' guide ' both usually refer to a document whose main aim is to provide information or instructions. Their purpose is to give the adequate information or instructions that may be required by the user. They are both commonly used in relation to machinery, consumer products, training, technical instruction, etc.

Difference between Manual and Guide | Manual vs Guide

"an" user's manual / "a" user's manual When I see other thread, it was mentioned, It is not "an" user's ---, but "a" user's---. As we was taught we put "an" by following the word begins with a vowel "a,e,i, o, u", I thought this case is "an".

Online Library User Manual Or

[Grammar] "an" user's manual / "a" user's manual

A manual or guide will include many sets of instructions. Used alone, however, "instructions" can refer to the simplest explanatory text—push cap and twist to open, or use other door. The presence of user in the phrases you cited suggests an electronic or software product, in which case I would say all three phrases you cited are synonymous.

What are the differences between "manual", "guide" and ...

A user manual is a formal writing piece with a specific structure, and should be written by someone who is intimately familiar with the product such as a technical writer or the product designer. Writing an effective user manual requires knowing who is going to be using the product, then writing it with these users in mind.
