Originally published under the title, *The Book of the Villiers Engine*, by C. Grange. This re-print of the 1956 tenth edition has been updated with the inclusion of the 1959 supplement from the eleventh edition, the remainder of the engine type information being identical in all respects in both editions.

The first Villiers engine arrived in 1912 and during the great years of the British motorcycle industry many products were Villiers-powered. But it didn't stop there as Villiers also sold its products to manufacturers world-wide. The list of Villiers engine users is truly immense, and as far as motorcycles are concerned its like a who's who, with names including AJS, Ambassador, Cotton, Coventry Eagle, DMW, DOT, even Triumph and Vincent HRD.
